26. Scaevola Blue Print (P)
27. Torenia Moon® Blue (P)
28. Verbena Aztec™ Magic Silver Magic (P)
29. Verbena Buenos Aires

The Giant's Chair Garden

An enchanting fairy-tale wilderness fit for a magical being...Beautiful layers of true blues interweaved with subtle greys and the palest blues. The planting of these charming tonal hues envelop an intriguing, yet colossal chair!

A fun garden which uses a very limited palette of colours close to one another in the colour wheel. These cool colours are refreshing and soothing, making it the ideal choice to cool a sunny patio. The perception of a gardens size also changes as these colours give the appearance of 'opening up' the space. It's in this mystical and magical garden that Bruce, our resident giant gardener, rests at the end of the day!
