The Modern Cottage Garden

Brighter the better! Cheerful, bright, textured tones of buttercup, amber and scarlet, offset with the deepest blue create a visual explosion. The overlooking veranda is the perfect retreat for laid back living, a platform to enjoy the floral wonderment.

In this segment gardening activity and spend is high, particularly due to the fact they own houses with large gardens that contain lots of plants and features. They are proud of their garden and gardening is integral in their quality of life. They have the income to purchase quality gardening products. Maintaining their gardens often develops into a deeper interest in horticulture. They love a good choice of interesting looking plants and are prepared to pay a premium price for these. 22% of all visits to Garden Centres are from this group.
