

# Anemone Harmony

<b>Plant type:</b>	Perennial, bedding plant
<b>Uses:</b>	Pot plant and patio containers
<b>Flowering period:</b>	<b>Spring</b>
<b>Plant height:</b>	30cm

## **Approximate crop timing (mid season)**

Ball 230 plug WK 42                      Pot week 43 10-12cm pots, jumbo packs, 3 plugs in a 2 litre pot for valentines, Easter and Mother's sales.

## **Growing on:**

Temperature	Grow on under cover
pH	5.8 – 6.0
Feeding	Start feeding around 1.8 EC, on the end of the crop around 2.3 EC. Low nitrogen and high potassium is needed for a strong plant.
Compost	Pot into a well aerated compost with a base feed.
Growth regulation	Genetically dwarf. Can apply Daminozide to reduce stretching of plant
Pack/Pot size	1 litre pot 1 plug per pot., 3 plugs per 2 litre pot, 10-12cm pot 1 plug per pot. Jumbo 6 packs.
Advice	Make sure special care is taken when removing plugs from the trays to avoid damaging roots. Do not plant plugs too deeply. Make sure growing media does not contain a high salt concentration.
Common pests	Thrips and Aphids
Common diseases	Ensure plants are given good ventilation. If necessary apply a protectant chemical treatment to prevent the development of Botrytis, Pythium, Rhizoctonia and Anemone leaf curl.

Ball Colegrave cultural information is issued as a guide to growers, based on our own trials experience. It is not intended as a blueprint for growing. Any chemicals referred to should be used only in accordance with the manufacturer's instructions.
