

Merry Christmas for Ball Colegrave

## Extended Opportunities for Perennials

There is still time to secure your Perennials for 2017 sales. Our Ball 230 and Ball 84 **Lasting Beauty™** plug ranges have both been extended to offer an even great variety range and delivery weeks. Availability is currently good so do not miss out on some extra sales opportunities.

### Cost Effective Perennial Plugs

The **Ball 230 range** offers the best option for high density production and automated transplanting. A popular range for 9 – 10.5cm pots and pack work. Many of our 230 plugs are multi sown, providing a fuller looking plug and better looking pot item in retail. The range has been extended to delivery weeks 6, 10, 14, 18, 34 & 38.

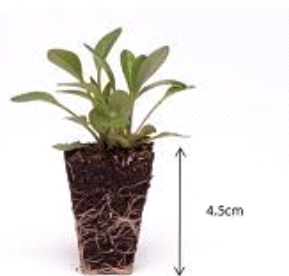

### Perfect Perennial Plugs for a Timed Finish

The **Ball 84 range** is perfectly sized for both hand and machine transplanting and is a particular favourite for 1 litre flowering pot sales from April to June, optimising space around the bedding season. Our extended variety range and delivery weeks (6 – 38) include many new introductions such as **Gaillardia Mesa Red**, **Pulsatilla Pinwheel**, **Salvia Mirage** and the Award Winning **Coreopsis UpTick**.
