

Give your Autumn sales the extra edge

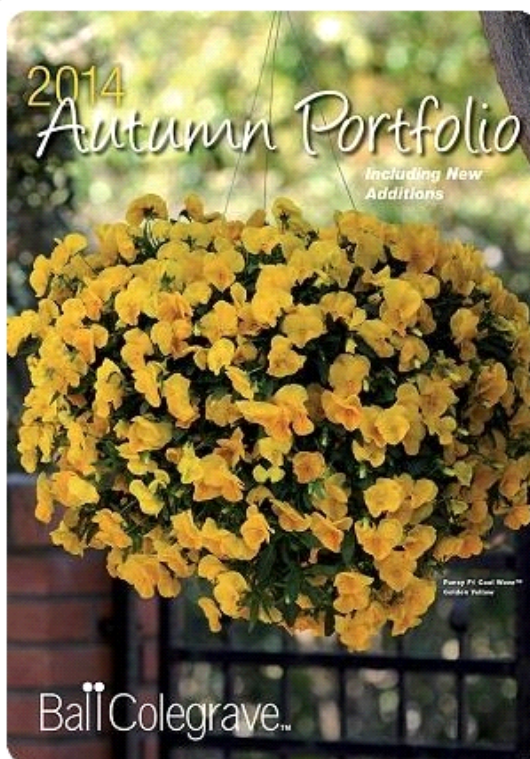

Our 'Best in Class' genetics always give you the extra edge...

New Additions for Autumn 2014

We are delighted to present our **2014 Autumn Portfolio**, which brings together our extensive range of products for late Summer, Autumn and Spring sales including 17 new additions.

Our number one goal; 'to develop and offer the very best plant genetics, backed by a first class service', is always at the forefront in everything we do for our customers. The success of this is never more apparent than in the key product class of Pansy and Viola.

Ball Colegrave offers the very "best in class" with **Pansy F1 Matrix™**, **Viola F1 Sorbet™** **XP** and the more recently introduced **Trailing Pansy F1 Cool Wave™**. New generation breeding takes production and garden performance to a whole new level with their unique plant structures, controlled plant habit and stimulating new colours to excite the retail market.

Our fantastic **Primrose** and **Polyanthus** plug range covers everything you might need, outstanding, proven genetics which provide colour from October right through to March. Straight colours, bicolours, rosebud types, double flowering varieties and novelties including the new eye-catching **Primrose Moonstone**. Ball Colegrave really is leading the way when it comes to best genetics in Primrose and Polyanthus.

A fashion-inspired Summer Showcase

It's full steam ahead with preparations for this Summers Showcase as our trials take on the next stage of their evolution with grand new displays, including a 4 metre high VertiGarden celebration cake, fashion inspired/lifestyle patio gardens and container festival!

If you missed the show last year, here's a little taste of what we've been getting upto...
