

The 2015 Spring Additions Is Out Now

Ball®

Maximise your colour sales...

Keep your market fresh and exciting!

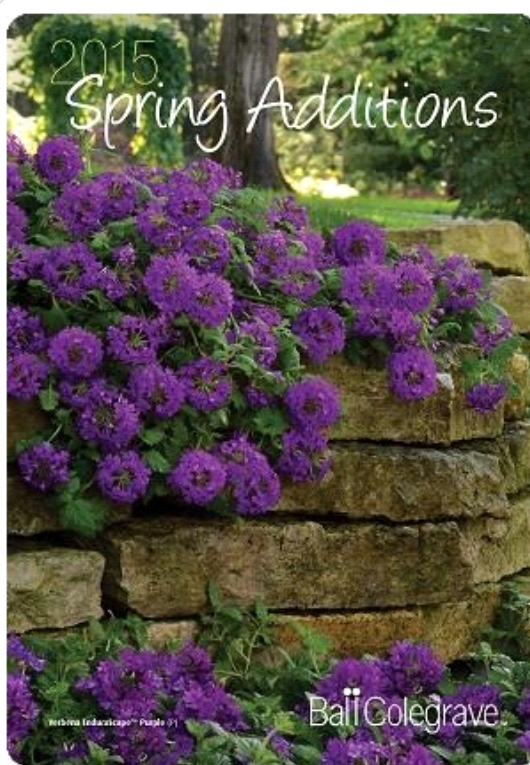

Since the release of our 2015 Plant Catalogue, we have extended our product offering with over 60 great new introductions now featured in the **2015 Spring Additions** brochure.

Many of these varieties were selected by the 2,000 customers who visited this year's Summer Open Days and identified their favourite plant with a blue flag.

Highlights include **Kabloom™**; the world's first ever Calibrachoa series from seed, the beautiful and continuous flowering **Begonia Million Kisses® Embrace**, and the tough, durable **Verbena EnduraScape™**.

[Click here](#) to download a copy of the **2015 Spring Additions**.

For further information on any of the varieties please contact [Customer Services](#) or your

2015 Spring Additions

local Technical Sales Representative.
