

Double Impatiens Glimmer wins Best In Show

Best In Show - Double Impatiens Glimmer

The team at Ball are delighted to announce Double Impatiens Glimmer™ Appleblossom has won 'Best New Annual' and 'Best In Show' at the HTA National Plant Show 2022

Appleblossom is a stunning and romantic colour in the NEW Glimmer™ Double Impatiens series and will be available in the Ball 84 plug tray for 2023.

Like all colours in the Glimmer™ series it is matched for timing, habit, and most of all high resistance to Plasmopara destructor, the cause of Impatiens Downy Mildew.

The well-branched, mounded and trailing plants are covered with large, iridescent rose-like double flowers.

Glimmer™ is suitable for growing in 10-17cm pots, hanging baskets, patio containers and is the only Double Impatiens series on the market that is highly resistant to Impatiens Downy

Glimmer Appleblossom - Best In Show

Mildew.

"After 2 years without a physical show, this has been a very special event bringing the industry together when gardening is at an all-time high and for the whole industry to showcase the very best in new plants and retail opportunities. So, to receive the highest award for a truly remarkable plant bred by Ball is a wonderful reward for the whole team" Stuart Lowen, Marketing Manager
